*Enjoy all the ambiance of a fireplace
using a fraction of the energy!*

Electric fireplaces use over
90% less energy than gas to produce
visual flames – with **ZERO** emissions.

- Maintain a safe, healthy environment for anyone concerned about indoor air quality.
- Reduce impact on the environment – no burning of fossil fuels, eliminating the emission of carbon dioxide and other greenhouse gases.
- Conserve energy by zone heating – provides supplemental heat for up to 400 square feet.

Green Advantages!

The unique design attributes of Electraflame® electric fireplaces provide a multitude of benefits to both homeowners and the environment. Many of these characteristics are unique to electric fireplaces and meet the criteria set out by the independent groups and organizations who promote the practice of Green construction and sustainable development practices. Electraflame® electric fireplaces meet these criteria and go further to help create and maintain homes that are clean, healthy and safe for their occupants and neighbors.
